

# NICHOLAS UPCHURCH

Founder & CEO of Love!, Creator of the Show 'Believe'

## YOUR NEXT GREAT GUEST!

### BIO

**Nicholas Upchurch** has a background in Digital Marketing and the companies which he has owned have generated millions of dollars in sales within a very short period of time. Although he was able to build a business that was very successful, travel to 33 countries, play football in front of 111,000 fans on National TV, and earn 6 figure monthly checks from partners like Google, his life changed in 2015 when he visited the Sacred Valley of Peru. Through an interesting turn of events, and exploring the difficult parts of life that all of us may have encountered at one time or another, he has now dedicated his life to not only helping people succeed in terms of "Money & Business", but also to find their true purpose in this world. In addition, through his company Love!, he has started a Media Network called 'Believe'. Believe features a website ([www.believe.love](http://www.believe.love)), YouTube Channel and Podcast that has already reached tens of thousands around the world in a very short amount of time. Believe is a show designed to help you truly succeed by understanding and exploring all of the following categories in new, innovative ways: True Success, Money & Business, Health & Wellness, World News, and Our Universe. We seek to expand on the world's current definition of "success" by realistically exploring spirituality, step-by-step, tangible solutions to issues we face, and finding the beauty we can in current events along with the difficult, often undiscussed, possible realities of our everyday life as people today. Through this exploration, we can perhaps truly find the success and fulfillment we seek in this life.

### SUGGESTED INTERVIEW QUESTIONS:

How does someone who has read a lot of books and "heard it all" actually accomplish the goals they dream of accomplishing in life?

How does one make a lot of money by either: 1) getting a better job, 2) building a business or 3) improving on an existing business?

How do we truly find our purpose?

Have we been lied to or deceived in almost every important category by both our schools and government? For example: History, Medicine, Energy, the Monetary/Financial System, the nature of life and our Universe, and the true potential of the consciousness of which we are all a part of as humans?

How do we find positivity in the horrible things we hear about in the news?

What are the latest amazing breakthroughs that people may not be aware of, but that really show promise in X category? (Choose any: True Success, Money & Business, Health & Wellness, World News, Our Universe)

Open question: Ask me anything you would like! If it's specific, check with me before the interview so I can prepare a thorough response!
